Greetings Dear Pastor:

It is so hard to believe that we are already one month into the new year. We have stayed busy this month. God has really been blessing the work.

We started out the month on the first Sunday having my helper Pron come downstairs after morning service and say there was a baptism. I said, "Who is getting baptized?" He said, "Me, pastor, I get baptized!" Praise the Lord. Pron was saved and baptized in a Refugee camp, but later was unsure of his salvation and trusted Christ to make 100% sure. However, the Karen teachings in many of their national churches is that they should only get baptized once in life. This is a false teaching that I dealt with a lot when I was the pastor in America. God finally won out through conviction and he submitted himself for baptism.

Lai Xin is a Chinese lady that has been coming for many months now and has been saved through the help of a translator. She decided to get baptized this last Sunday. Praise God! Please pray, we need a Chinese translator.

Missionary Todd Painter

This man was a Muslim who decided he didn't believe they had the truth. He was researching Buddhism to see if it had the truth. He got saved last Thursday night and came to church on Sunday and followed the Lord in baptism. (No name or face will be used here.)

January 13th in Thailand is called children's day. On January 14th we had a special children's day promotion at our church. That morning we had 149 people attend the services. We had 65 adults attend and 84 children.

The ladies meeting craft this month. (pictured) At the meeting there were 15 ladies in attendance. An unsaved lady named Deng who has been coming since we started the church said everyone seems so much happier since Jesus has come to the neighborhood. I believe she is close to trusting Christ as her Saviour!
