Receive greetings from the Ventura Martínez family, your Missionaries in the South of Chile. We pray to the Lord to continue blessing the church and each of its ministries. We appreciate the care, and your concerns that you have sincerely had with us, during All the time that God has allowed us to be here in Chile until today, God has been good and faithful with us until today, throughout 2023 we saw his love and compassion in his precious work and in our lives. I want to sincerely apologize for the reports of some months that you did not receive, it's not that I didn't send them but that my computer started to crash and I didn't realize Note that my reports were not coming out, but we have already repaired the error and once again I apologize. Dear brothers, thank you for having part with us here in this country so in need of gospel. At the beginning of this year 2024 God allowed us to start the year with several baptisms. when We were baptizing a woman who was at the river approached and asked me to preach to her. Her niece was saved and she was also baptized. In the month of February we had our Missionary conference, it was a great blessing, it was Missionary Freddy Peace preaching, and two families who are missionaries here in Chile, the Perez Gusman family and the Delno Ballesteros family, were of great blessing for the church, We also had the presentation of Haiti, Italy, China, and Egypt, the brothers were challenged and motivated to do much more for the work of the Lord, thank God because we can see that this is a wonderful opportunity to do something more for the work of our beloved savior. Yumbel's work continues, in the month of January were the town's religious festivals where thousands and thousands of people from different parts of the world come to pay, we see it as an opportunity to preach the Gospel even if they throw the pamphlet in our faces or spit on us It doesn't matter we keep preaching they are blind and dead, we are the living ones for Christ and they have to know it, Now March 20 is the second party of the year and even for them it is the biggest, we We will try to take advantage of it to preach the precious gospel. We continue Evangelizing in the streets, in the squares, the routes continue forward, the new Converted they move forward by the grace of God. We continue preaching in the hospital, we still do not have permission in prison, we pray to the Lord that give us an opportunity to preach there Pray for us because we know that we can still do much more for our beloved Savior, To Him be the glory.
