

January 2024

We can proudly announce **GLC 2025** has begun and we're moving full steam ahead. Yes, it's taken a few days to tweak the schedules and get back into "school" rhythm but it feels like we're doing well. We've welcomed two new students that are settling in and everyone seems very happy. Having switched over to a predominantly video classroom, we had some technical glitches to work through but the Lord has provided everything needed and we're excited about the year ahead.

The school year in Botswana is from mid January to November. Seasons here are opposite of those in the U.S. so December and the first weeks of January are our "Summer" break.

January Class Spotlight..

BIBLE

We start the day with a small writing paper then go into Bible time. Did YOU ever wonder if Mrs. Noah got sea sick? We all agreed she probably did :) Would you fall to the peer pressure or stay strong for GOD like Mr. Noah did? (I try to highlight a different thought in stories children have heard a lot.) We work to make this time VERY interesting as it is the MOST important lesson they will get all day! When even the teachers are hanging on every word, you know it's going well.

Pastor Mike, everyone at GLC and myself want to say a big THANK YOU to everyone who has prayed for this ministry during this time of transition. A VERY BIG thank you to all who have pledged to assist the school financially for the next six months to a year. You have made a huge difference in the lives of many. At least 3 of our students would have had to return to government education OR just stay at home. They won't learn about standing strong for God there! NEVER, EVER feel like your contribution isn't making a change in someone's life. I can promise you that it is.

Cindy Haley AKA: Mom Cindy

REMINDER:

Please send donations for the GLC to:
BIMI Acc #805 – Designate "GLC or School"
