

August 2025 was the end of our 19<sup>th</sup> year in Mexico. September is the beginning of our 20<sup>th</sup> year on our quest to love as many into Heaven. Only 2 decades compared to all eternity is not very much but “time” is a funny thing, it comes and goes; we can recall a moment in our brief past at the whim of a thought and, yet also, dream forward in our mind, but what I love about our Heavenly Father is His Name is **I AM**! He is always present and is never very far from any one of us. Our Heavenly Father is the ever present **I AM**, not I WAS, or I SHALL BE. We continue to give our best efforts to the precious people of Mexico City and are so thankful to those that have given of their bounty so that the Word of God can be freely given to all.

Mexico does not have a Citizenship status only a Nationality status. But something disturbing is happening here. All Nationals have been told that they are **obligated and must** have their faces scanned including their retinas and iris’ (for a new nationwide identification), as well as, all of their fingers electronically printed. There is a large-scale murmur brooding among the living men and women of Mexico, against the “elected leaders”, but the “Presidenta” seems to be forcing the hands and faces of Mexicans. This is a large-scale VIOLATION OF PERSONAL PROPERTY RIGHTS. It is stated that this will keep the people of Mexico “more-safe” but, **EVERYONE IS SEEING THROUGH THE FALLACY AND FRAUD**. Is it to keep the people “more-safe” or rather to control and force more violations? It has been said that the “Eyes are the windows to our Souls”, or in the scriptures, “Mine eye affecteth mine heart”. [Our] bodies are [our] private property given by the **The Creator** at conception and revealed at birth.

This month we continued our Children Bible Clubs. One at the Rio Guadalupe area and another in a park called Las Aguilas (the Eagles). It is where we had our basketball camp several years ago with Will Ashley (and family), the pastor who recently went to Glory. The little ones are always accompanied by their parents or older brothers or sisters, which adds to the greater area of influence and broadcast of the precious seed of the Word of God. In those Clubs there were a combined 71 precious children and adults that called upon the Saviour.

Our giving of a small bag of groceries as a gift with a scripture is opening a great door of affection. Many are astonished but truly thankful. I liken (the giving of food to the poor) as when in the Old Testament the corners of the fields were not to be harvested but allowed to be gleaned by the poor.

Recently, I remembered my maternal grandfather, Genovevo Ruiz Izaguirre, telling stories when I was very young, that he had a somewhat distant cousin (from his mom’s side) fourteen (14) years older, that ended up being the wife to one of Mexico’s presidents. Adolfo Ruiz Cortines married María de los Dolores Izaguirre Castañares. Ex-President Cortines was in office from 1952-1958 (as Mexico’s presidents serve only 1 (one) term of 6 (six) years. The former first lady of Mexico was my second cousin, that I never personally met as, they (my grandfather and his cousin), shared the same great grandparents (from Spain). Incidentally, I believe she was the first lady to ever cast a vote in Mexico and championed for the cause. I am researching the possibility of a third nationality from Spain due to the 3<sup>rd</sup> and 4<sup>th</sup> generation Bible rule.

I have begun using MMS and it has helped me greatly. My blood pressure has subsided to normal, and aches and pains are disappearing. It is a remedy that has been used as a sterilization of water for over 100 years. We pray this will continue. It is also called Chlorine Dioxide.

We drove to San Miguel de Allende, Guanajuato (a four (4) hour drive) to celebrate the wedding of Estiber Salazar Arguelles and Martha Laura Ortega Rayas. We drove very late Friday to arrive at midnight, as we had an appointment to put on new license plates that are “TRANSPORTE PRIVADO AUTOMÓVIL” or “PRIVATE AUTOMOBILE TRANSPORT” type and not public plates (big difference). In Mexico City,
