Dear Friends, Supporters, & Prayer Partners:

We have not said much recently about our property situation other than in the form of a prayer request. And, we do need and appreciate your prayers on our behalf.

Now it is time to put some “financial feet” to our prayers. We recently met with our lawyers who strongly advised us to construct a fence around the property that has been indisputably declared ours. He gave several legal reasons to go ahead with this project, but the most important one is to keep the people who purchased the land from the thieves from trying to invade it, or the thieves themselves from trying to re-sell it. Mexican property laws are very different from American property laws. It is understandable to our way of thinking that a situation like this would be incomprehensible.

Several of you have already taken special offerings and helped us in the past: we are grateful for you. Some have given sacrificially to help us reclaim what God has already given to our ministry: we are grateful for you.

Whether you and your ministry are giving again or for the first time: we are grateful for you.

Please prayerfully consider helping us raise the \$6,000 USD needed to build this fence.

Please designate funds as

PROPERTY
