Greetings Pastor:

We wish everyone a joyful New Year! This month, God has greatly blessed our work here. Our Christmas programs were highly successful, resulting in 39 individuals coming to trust Christ. We estimate that well over 100 people received a clear presentation of the Gospel, with many expressing a desire to contemplate it further. One person even mentioned they were “70% there” —a first for us to hear it said that way!

My wife's back is now approximately 90% improved after attending chiropractic sessions three times a week since early November. We are also delighted to have our daughter, Debbie, visiting for Christmas; she will be returning on January 3rd. Please keep her in your prayers as she is experiencing headaches that are impacting her vision. Before leaving, she underwent an ultrasound for some unexplained lumps on her head and is scheduled for an MRI on January 5th in Texas.

In addition, we had an oil change performed on our church's Songthaew and discovered that we need to replace the brakes, one rotor, ball bearing, and tie rod. The total cost amounts to \$465. If anyone can help we would appreciate it.

~ Missionary Todd Painter

This picture was from December 28, we had 50 people with 3 first time adult visitors this Sunday. We had good crowds all month with visitors every week. The Lord has blessed our services.

This is Hla Myo who is a Chin man from Burma that has been living in Thailand for five years. We met him about a month ago out soul winning, but unfortunately, he works seven days a week most of the time. This past Sunday he was off and came to church. He wanted to follow the Lord in baptism!

This is Wi Pa Wee (black shirt) who came to church on December 21st. I preached that day on the “I AM” and talked about how the Egyptians had false gods and that God was the “I AM.” I could see this lady was under great conviction. She immediately wanted to get saved at the invitation time and followed the Lord in baptism. She has been attending services since then.
