

Round Up Ministries Update February/March

We have again been in a whirlwind with our meetings. We were in Arizona for four weeks and then New Mexico for four weeks. It was exciting to see the Lord move in so many wonderful ways. This is undoubtedly the best meetings we have had in the West since covid. The crowds were tremendous. Six out of the eight churches had record breaking attendance. It was a joy to see this for these hard-working preachers.

While we were Pastor Mike Moffitt, we had a very unusual thing happen. Two visitors in attendance didn't speak English. After the service, while talking to them we realized that one spoke the language of a visiting missionary. We got them together and she was sweetly saved. Another saved visitor from another church spoke Spanish and was able to lead the other lady to the Lord. Divine appointments are sweet!

While with Pastor Joel Sloan, a member who is not able to attend often was available to come for the Big Day. One of her neighbors then contacted her to say she had seen the advertisement on social media and wanted to go. When the church member picked her and her children up, the lady said, "We need God in our lives". Of course, you guessed it the lady and her children were saved, they stayed after for the meal, and we feel confident they will be attending that church. God uses Big Days to draw folks to Himself as well as to these local New Testament churches.

We have been busy raising money for new inflatables. Our bull mat and bounce were bought 15 years ago. They are in rough shape. We also are getting rid of the bigger items that will enable us at our age to more easily set and up tear down the carnival. We are excited about what God has brought in and will be picking up three of the items next week which saved us so much on shipping. Praise the Lord for those who gave. The carnival is one of our greatest attractions to bringing in the lost. We want to endeavor to continue it for as long as it is physically possible.

We just finished our last meeting for March at New Heights Baptist Church in Albuquerque. They really worked hard with social media advertising and flyers. The largest day they had previously was 240 and they had 326 in attendance not counting their normal church folks. The total saved was 68 which included 13 saved under the soul winning tent. Wow, it was a fun carnival. So many visitors. They handed out packets about their Easter Sunday coming up and explaining to the folks about their many ministries. We know they will see new members and the preacher said they have so much follow up that will keep them busy until summer.

Our total saved for the last two months is **251**. Now we are heading to Louisiana for four weeks. Jeannie and her two girls went home. She finally felt like she could be home alone and wanted to try it. Thank you to all who have helped pray for her through these difficult years. It's just Loretta and I for the next six meetings then a young couple will be joining us for the summer and fall. Pray for them to be able to raise some support to afford to travel. This might be a steppingstone for them to get into the ministry full time.
