### "Grinder - Chickens - Classroom - a Truck"

#### GRINDER

I arrived back in Florida on the 14th of May and after being in Africa for almost eight weeks we were blessed to see 4,459 souls saved. We also visited dozens of ANOM churches. While with one pastor, Tuwei Wilson, in Kapeta, Kenya, ANOM was able to help his family with the purchase of a grinding machine. These locally fabricated grinders are used to produce corn and cassava mill, etc and cost \$650. They can be a helpful tool to enable the local pastors and missionaries to provide for their families as they preach the gospel.

#### CHICKENS

Christopher Matebe's Chickens in Tanzania

One of the ways that ANOM also helps national pastors is by helping them establish chicken / poultry farms. We have done so all over Asia and Africa. While in Tanzania, I discovered that several good preachers needed assistance. Through Missionary Christopher Matebe we were able to send funds to purchase 350 chickens for 7 local pastors. These chickens cost roughly \$5 each and can produce eggs daily to sell in the neighboring communities.

#### CLASSROOM

Our kids from Vacation Bible School this month raised \$1981 for Missionary Erick Chondo in Mwangulu, Kenya to help his Christian School build another classroom. I was blessed to be with him and his sweet wife while in East Africa and visit the school. They have more than 130 students now and this missionary "penny" offering from VBS kids in Middleburg, Florida will complete the new classroom and allow the school to grow numerically.

#### TRUCK

Kim and I have just completed purchasing a Toyota Tundra here in Florida and by next month are hoping to ship it to Nigeria. We still need about \$1000 to pay for the customs, etc. Thanks to all who have helped to support us and hold the rope as we serve the Lord and minister alongside indigenous pastors.
