# ALL NATIONS OUTREACH MINISTRY
## CALVARY BAPTIST CHURCH
*"A Church... All Nations"*

October 29, 2026

Dear Pastor and Church Family,

Hello from the Gboko, Nigeria where I am presently preaching a revival for a new church. ANOM has helped plant more than **460 churches in less than 5 years**. The sacrifices of the local indigenous pastors as well as our supporters in the US has made all this possible. The Lord has blessed the past two weeks and weeks as we have seen more than 2000 souls come to Christ. Today I was blessed to baptize 11 new converts in a local creek as well as preach the gospel in a school and a prison.

It is so important that we reach out and communicate with these young pastors and even, when possible, visit their churches in the more than 40 nations where ANOM has a footprint. Just this week I was in a church planted in 2024 in the village of Naka. The pastor had not had any outside visitors come to preach in his church or encourage since he began. He felt isolated and forgotten. We not only spent time fellowshipping and preaching together for 2 days but because of the gift of a sweet family in Ohio, we are able to help his wife start a new business in the front of their church and living quarters selling provisional items such as bread, sugar, tissue, soap, and more. This pastor is already preparing to start another church south of him about 30 minutes. ANOM will have a part in the new church plant as well.

**Confirming the churches** – This was what the Apostle Paul did in his missionary journeys. He was an evangelist and a church planter, but he didn't stay long in any one place. He moved about as we are told in Acts 15:41 and he confirmed and strengthened the believers and baby churches of Asia Minor. Otherwise, the new pastors may have failed. They might have swerved from the doctrines. The value of Paul's going back to check on them was invaluable. And so, it is with ANOM today.

**I am visiting 35 churches over a period of 8 weeks** while in Nigeria, Liberia, and Togo. I need your prayers as well as your support. Phil Heilmann who serves with us as well just returned a week ago from **visiting 11 new churches in Nepal**. This work is necessary for edification as well as accountability. It can be tiresome as well as costly. We are hoping that some of our supporters will send an occasional love offering or possibly send regular support to us earmarked for **"ANOM TRIPS".** In 2027 we plan to be in more than 15 nations on 6 trips extending for 3 or 4 weeks each. Just this week I have spent more than $200 on gasoline alone visiting 5 new churches. Airfare is on the rise as well. If you would like to help in these areas, we will be grateful forever. I wish you could hear the pastors, their families, and the churches thank us for coming to help them and check on them. This is an eternal work. We thank you always for your love and support.

Tim and Kim Pledger
